

EddyAI Navigator: Powered by EdVisorly & Alabama Transfers
Update to the Alabama General Studies Committee
July 29, 2025

Launching in Summer 2025, EdVisorly is partnering with Alabama Transfers to reimagine the transfer experience within Alabama's higher education system. This initial three-year pilot program will provide selected Alabama community colleges with access to EdVisorly's platform. The goal is to strengthen both transfer and reverse transfer pathways between Alabama's community colleges and four-year institutions.

EdVisorly is an AI-powered platform dedicated to supporting community college students in their journey to successfully transfer to four-year colleges and universities. EdVisorly's mission is to make transfer pathways transparent, accessible, and achievable for all students, while maximizing their success during their time at community college. EdVisorly proudly collaborates with innovative and forward-thinking institutions—both two-year and four-year—across the United States.

EdVisorly works directly with colleges, universities, and state systems to improve transfer, reverse transfer, and dual enrollment capabilities. As the most robust and trusted AI-based transfer platform, EdVisorly offers:

- A modern solution for managing course articulation data
- A seamless, student-friendly transfer pathway experience
- Automated support for transfer planning and reverse transfer processing

EdVisorly's platform will automate transfer credit evaluation, streamline transfer pathway planning, and empower enrollment teams with industry-leading technology to enhance forward and reverse transfer.

Through close collaboration with Alabama Transfers and participating colleges, EdVisorly will tailor the platform to meet institutional needs, streamline transfer processes, and help design the future of statewide transfer systems in Alabama. This partnership provides Alabama community college students with clearer, more relevant, and more achievable pathways to four-year degrees, empowering them with tools designed for long-term success.

Thanks to funding from Alabama Transfers, this pilot is being offered at **no cost** to Troy University and several of TROY's top partner community colleges, including:

- Enterprise State Community College
- Lurleen B. Wallace Community College
- Wallace Community College Dothan

The pilot will span several enrollment cycles. After successful testing and feedback, the initiative is expected to expand to all remaining community colleges and public four-year colleges and universities across Alabama over the next five years. Ongoing funding will continue through Alabama Transfers' annual budget. There is also on-going discussion about collaborating with private colleges and universities to join the program. Private four-year colleges and universities will have the opportunity to join this initiative on the basis of an annual subscription.

The pilot program funded through Alabama Transfer's budget and accessible to institutions participating in the pilot program include:

- EddyDB™ - an AI-powered database for state-wide course equivalency and articulation management
- EddyNavigate™ - student transfer planning technology
- Reverse Transfer Platform, powered by EddyAI™

In addition or in advance of joining the pilot program, Alabama colleges and universities can opt-in to additional EdVisorly products and services that support transfer enrollment and internal enrollment operations.

- EddyAI™ - College Transcript Processing
- EddyAI™ - High School Transcript Processing
- EdVisorlyRecruit™ - AI Transfer Recruitment Platform

Please contact Brandi Stacey, Director of Partnerships Success at EdVisorly, if you have questions about the pilot program, EdVisorly, or if you'd like additional information:

EdVisorly AI Pilot Project

Transforming Transfer in Alabama...it STARTS here!

Background on EdVisorly & Alabama Transfers Partnership

STUDENT EXPERIENCE AND SUCCESS WITH EDVISORLY

EdVisorly is an Artificial Intelligence(AI)-powered platform dedicated to supporting community college students in their journey to successfully transfer to four-year colleges and universities. EdVisorly's mission is to make transfer pathways transparent, accessible, and achievable for all students, while maximizing their success during their time at community college. EdVisorly proudly collaborates with innovative and forward-thinking institutions—both two-year and four-year—across the United States.

PILOT PROGRAM TIMELINE AND OBJECTIVES

Launching in Summer 2025, EdVisorly is partnering with Alabama Transfers to reimagine the transfer experience within Alabama's higher education system. This initial three-year pilot program will provide selected Alabama community colleges with access to EdVisorly's platform. The goal is to strengthen both transfer and reverse transfer pathways between Alabama's community colleges and four-year institutions.

Through close collaboration with Alabama Transfers and participating colleges, EdVisorly will tailor the platform to meet institutional needs, streamline transfer processes, and help design the future of statewide transfer systems in Alabama.

EDVISORLY'S ROLE IN SUPPORTING TRANSFER
