

UPDATE - ANNUAL REVIEW

COURSE EQUIVALENCY DATABASE

AS OF 8/13/2026

Background:

The Alabama Transfers Course Equivalency Database provides students, counselors, advisors, and other users with current equivalency information for more than 270 ACCS general education courses. The database is the foundation of Alabama's statewide transfer guide system and provides course information used by AI tools to assist students.

To ensure accuracy, registrars at all 14 public four-year universities are asked to review and update their course equivalencies annually. Alabama Transfers staff provide each registrar with existing equivalencies for review and newly added courses requiring evaluation.

Alabama Transfers is also working to refine and automate this process to improve efficiency, consistency, and accuracy. The following is the current status of the annual review and update process.

AAMU UPDATE: We are missing 26 course evaluations. We emailed them again and asked to complete May 21 and Aug 6 of 2026.
